

ABOUT MAK CLAIMS

MAK Claims, a premier Insurance Management software suite, is a user-friendly business solution designed to ease the operational management of assessing and paying out claims while providing an easy-to-use interface to manage employees' and their workloads.

MAK Claims offers a modern toolset for businesses that desire to upgrade their process flow by allowing Internal and external claim views. These views implement a dedication and focus to the tasks at hand with a claim for both your customers and adjustors, providing a visible way to see where a claim is in its lifecycle. This coupled with Managerial views show a more holistic view of the company and it makes MAK Claims an indispensable asset when managing insurance companies.

CUSTOMERS LOVE US

Overview

Kamma's MAK Claims brings together modern claim features and functionality with digital engagement. MAK Claims supports all lines of insurance and available as a stand-alone solution.

"I have been a very loyal customer of Kamma Software since the very beginning of their establishment. No matter how many years pass by, their products are new, innovative, and always satisfy the needs of my business. The team at Kamma Software is the best team to work with. I have to give a huge shout-out to Maurice, Kirk, Megan, Aaron, and Afrah for always giving me this positive experience. Please go to Kamma Software for all your software needs and you will not be disappointed." - Vijay P. Accelerate INC

OUR HISTORY

KAMMA software has been in the business since 2010. KAMMA software started small from a small office programming simple custom software and now we are a fast-growing company with many customers who loves us and always never failed to return to us for all software needs.

Committed to
changing and
innovating traditional
claim processing
software.

ABOUT OUR TEAM

MAURICE AUFDERHEIDE- PROGRAMMER/DEVELOPER

Maurice is the project manager at Kamma Software. Previously he worked for CoStar Realty Information in their Research department where he helped with beta and later bug tested their Portfolio Research Tool. He has worked in several management positions outside of tech as well, including creating and managing a Proximity Marketing Team for Renewal by Andersen. When he is not working, Maurice enjoys running Minecraft servers and mods with his children.

KIRK HENNING- PROGRAMMER/DEVELOPER

Residing in Richmond VA with his wife and soon-to-be three children, Kirk has long loved the magic and possibilities of IT and its ability to streamline workflows and ease the challenges of business operations. Though only working with Kamma Studio for a short period of time, Kirk is excited about the quality and dedication this company brings to the market and is looking forward to helping continue the innovation and excellence the team's development arm produces.

MEGAN REICHWEIN- WEB DESIGNER

Megan lives in Mechanicsville, VA, and is the Web Designer for Kamma Software. In addition to studying web design, she has studied American Sign Language. In her downtime, Megan likes to hang out with her family and her dogs. She has been working with the Kamma Software team since the beginning. Megan looks forward to showing off all that Kamma Software has to offer.

AFRAH FAWMEY- MICRO APPLICATION

Meet Afrah one of our energetic team members. She lives in Richmond with her husband and kids. Afrah has been very passionate about IT and a dedicated team member for Kamma Software. Afrah helps customers to have a completely positive experience throughout the whole process. Afrah has been with the company since the beginning and always has shown to satisfy the customer needs. She is working hard and giving her best to make the company grow and to produce good quality outputs.

PUT YOUR CUSTOMER AT THE CENTER

Customer expectations continue to evolve as technology advances and new challenges arise which gives you opportunities to satisfy the customers. To do that you need more than just ordinary claims software.

MAK Claims helps you to transform your claims processing to a different level making you experience something really new and engaging.

At KAMMA Software we are committed to your success- May be that is why we have many insurance companies running on KAMMA Software.

TALENT, PROCESSES, AND RESOURCES SHOULD ALL BE OPTIMIZED.

Your claims organization's inefficiencies can have a major effect on your company's goals and objectives. Staying competitive necessitates optimizing claims productivity.

By maximizing talent, processes, and resources, ClaimCenter helps you improve productivity and minimize cycle times. Your claims teams will be able to process information more quickly and settle claims more quickly.
